### Influenza Vaccine Available NOW for Adults and Children!!

The Jefferson County Health Department currently has Influenza Vaccine available for adults and children. The vaccine is available at the Jefferson County Health Department and will be available at special school vaccine clinics held throughout the county for school-age children.

#### Children's Influenza Vaccine

The Health Department can give vaccine to children 6 months to 18 years of age who are covered by BadgerCare/Forward Health or without any health insurance. There is a \$10 administration fee for those without health insurance. The nasal mist is not available this year. All influenza vaccine is injectable.

#### Adult Influenza Vaccine

Adult Influenza Vaccine can be given to anyone 18 years and older, except for adults on Medical Assistance. The fee is \$35 or no charge for individuals with Medicare Part B. Please note the Health Department is unable to bill a Medicare HMO or Medicare Replacement Plan. The Health Department can bill regular Medicare Part B.

Adults and children can receive the Influenza Vaccine at the Jefferson County Health Department, 1541 Annex Road, Jefferson, WI, Monday, Tuesday or Friday from 8 a.m. to 4 p.m. No appointments are needed! Call 920-674-7275 for questions or to check if Medicare Card is accepted

#### Influenza Vaccine for Employees at Area Businesses

The Health Department is available to provide influenza vaccine clinics at area businesses to protect their employees against the flu. Call 920-674-7275 for more information.

#### School Vaccination Clinics

In addition, the Health Department will be offering Mass School-Based Vaccine clinics at most school districts in Jefferson County in October and November. School-age children can get influenza vaccine and other school required vaccines free of charge regardless of insurance coverage at these mass clinics. Signed parent or legal guardian permission is required for minors. The vaccines available include: Injectable Influenza, diphtheria, tetanus and pertussis containing vaccines (DTaP and Tdap), Human Papilloma Virus (HPV), Meningococcal, Polio, Measles, Mumps, Rubella (MMR), Varicella (Chickenpox), Hepatitis A and B

The school district, date, time and locations of these special clinics include:

Cambridge	October 5, 2016 4 p.m. - 6:30 p.m.	High School
Fort Atkinson	November 7, 2016 4 p.m. - 6:30 p.m.	Middle School
